Portal Access Guide

The screenshot displays the SchoolTool portal interface. On the left is a navigation sidebar with the SchoolTool logo and links for Home, My Home, and Discussions. The main content area features a top navigation bar with a hamburger menu, font size controls (A A A A), and a share icon. Below this is a secondary navigation bar with tabs for Students, Campus, and Account. The 'MY HOME' section lists two students: Jason Turner and Patrick Turner. Each entry includes a profile picture, a document icon, the student's name, address, phone number, relationship, and a 'Show Courses' link. Action icons for home, documents, upload, and desktop are visible for each student profile.

Getting Started

Basic Information

SchoolTool is a historical application that holds all permanent record information on an individual student by school year. SchoolTool also allows you to view past information about every student such as classes, grades, attendance, and discipline information. Historically, SchoolTool also keeps records for state reporting purposes.

SchoolTool is a web-based application. This means it can be accessed from any Internet connection anywhere in the world if you know your URL. This also means that if there is no Internet connection, you cannot access SchoolTool.

Because SchoolTool is a real-time application, users may experience brief pauses while the system updates itself from screen to screen. Be sure to watch your browser's progress bar to see when the refresh is complete.

Navigation

While viewing SchoolTool through a web browser, you should always use the buttons and links *within* the SchoolTool interface, and not those of your browser. If you use the **toolbar** buttons and/or menus of your browser, this may cause errors and impact the data on your screen. As a general rule, do not use the Back button on your browser as this will halt your connection to the database.

Finally, all of the links and navigation buttons are accessed with a *single* click, not a double click. Double clicking may not produce the desired results.

Note: The preferred browser for SchoolTool is Internet Explorer, but you can also use Safari. SchoolTool will work no matter connection you use (e.g., dial up, DSL, cable)

Note: SchoolTool uses several pop-up windows for calendars, alerts, confirmations, and reports. Please make sure to disable your pop-up blocker for the SchoolTool URL.

Navigation Buttons

SchoolTool uses simple navigation buttons that allow you to perform basic functions with a single click of the mouse. The specific tool tips associated with each button may give more descriptive text than shown below, but the basic functionality remains the same.

 Show/Hide	 Print or Report	 Cancel
 Show/Hide	 Done or Return	 Email
 Select or Details	 Previous or Done	 Check Spelling

Organizing Data Using Column Headings

In many lists, column headings may be used to reorder the list. Click once on a column heading and the list will sort in ascending order, using the data in that column. Click again and the data sorts in descending order. If a column heading can be sorted, your mouse pointer will become a hand when held over the column heading, which indicates that the column can be sorted.

For example, if you clicked the heading for First Name, the information would appear in ascending alphabetical order of first names. Click First Name again, and the list sorts in descending alphabetical order of first names.

Note: SchoolTool often uses a simple sort where numbers are treated as text. For this reason, numeric columns can be sorted, but may display the data in an unexpected order. For example, you may see grades 1, 10, and 11 listed before grade 2, because the list sorts on the first digit then the second.

Accessing SchoolTool

First Login

Preparation

When first logging in, a User (in this case) will need three things:

1. An email address.

Your current email address may be used to access SchoolTool. For this to happen, simply make sure to provide the school with this, and confirm that they have allowed your email address to be used when logging into SchoolTool.

Write your email address down:

2. The web site of the SchoolTool database.

Your school will provide you with the web address of SchoolTool. It may look something like:

<http://www.myschooldistrict.org/SchoolTool>

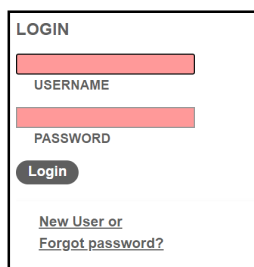

Write this web address down:

3. Access to your own email.

You may be receiving your first SchoolTool password through your email. It will be necessary to make sure you have access to your email for any passwords resets as well.

Logging In

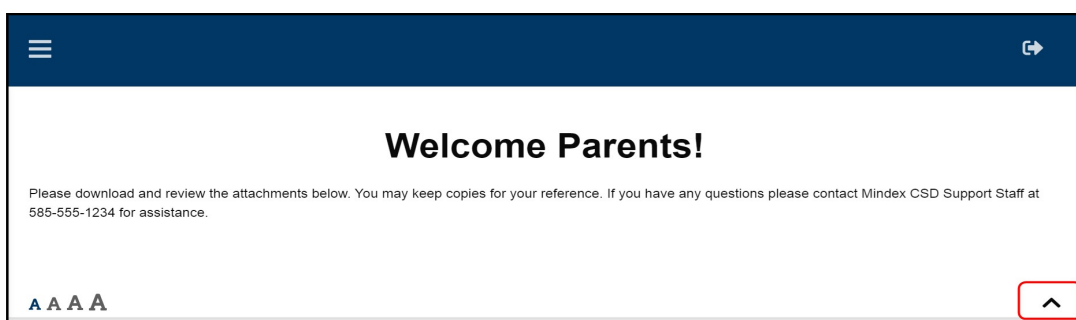

1. Open your browser and navigate to the SchoolTool URL for your school.
2. Enter the email address you provided to the district.
3. If you already have a password, enter it now. Otherwise, skip to the “First Time Logins/Forgotten Passwords” section. Remember that passwords are case sensitive.

A screenshot of the SchoolTool login interface. It features a white box with a black border. At the top, the word "LOGIN" is in blue. Below it are two red input fields. The first field is labeled "USERNAME" and the second is labeled "PASSWORD". Below the password field is a dark grey button with the word "Login" in white. At the bottom of the box, there are two links: "New User or" and "Forgot password?".

4. Click the Login button to login.

Collapsing/Expanding the System Banner

Some districts provide information to users in the system banner area. This might include general announcements, helpful links, and more. If your district has an active banner message, this will be

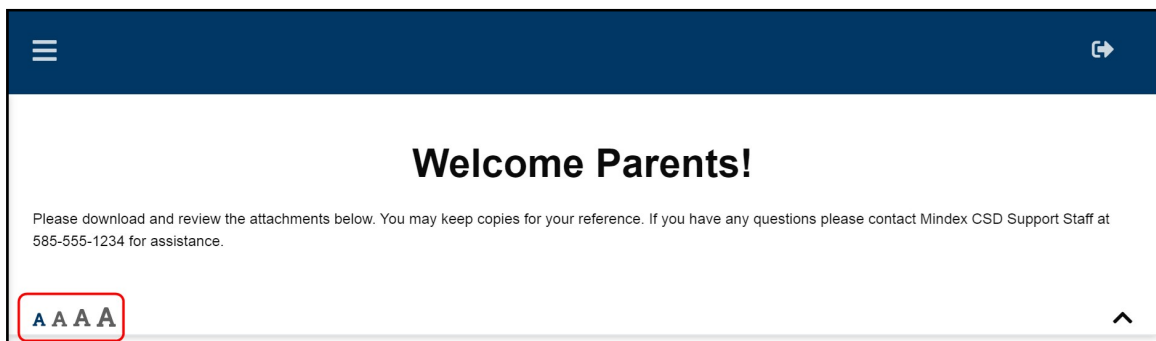

displayed in the banner area by default. You can collapse this area by clicking on the Collapse button at the bottom right of the message area. Note that this will collapse the banner during your active SchoolTool session only; the next time you log in the banner will automatically be expanded again.

When the banner is collapsed, you will still see a white bar at the top of the screen where you can access the font size buttons or expand the banner content at any time.

Adjusting Font Size

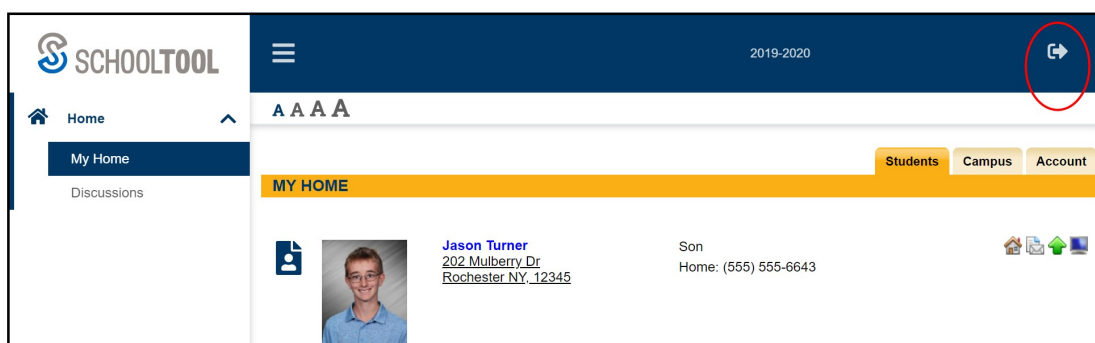

All users have the ability to adjust font size within SchoolTool by clicking on the font size buttons in the bottom left of the system banner area.

Changing the font size will increase or decrease text throughout SchoolTool. Note that not all images, icons, or buttons are scalable and therefore may not resize when the font size is changed. In future releases of SchoolTool these elements will respect the selected font size as well.

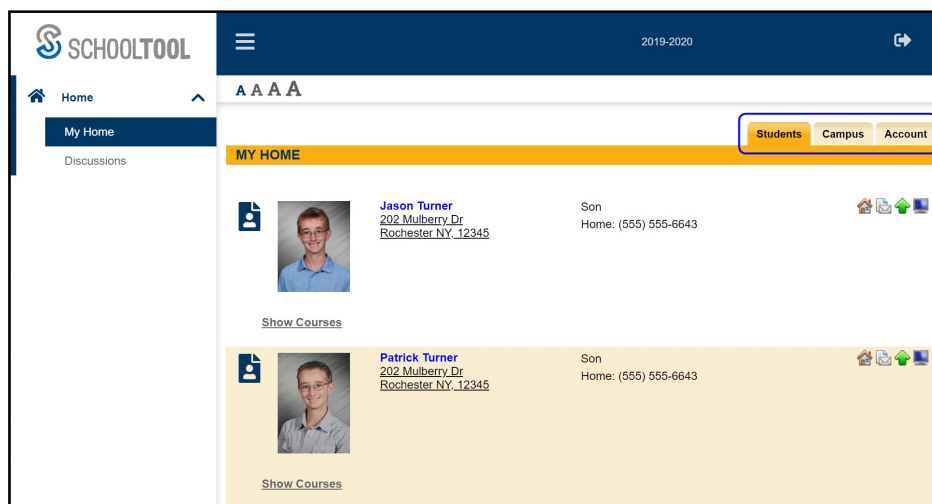

Logging Out

When it comes time to end the session, click the **Logout**  button in the right corner of the screen.

Using SchoolTool

After logging in, you will be presented with a screen containing three or more tabs:

Students Tab

The Students tab will display a list of any student contacts for whom the user has Portal Access, followed by a list of Limited Search results. To access the student record for an individual, click the View Student Record  button, or click on the student's photo or name.

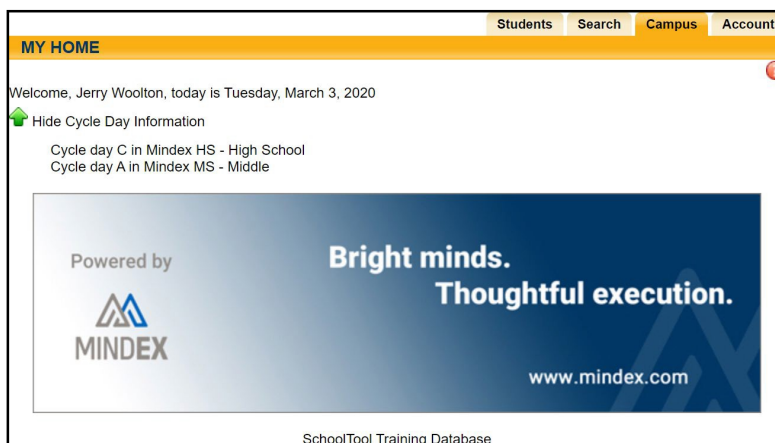

Student schedules are hidden by default; click the "Show Courses" link to expand a student's schedule. Note that the options to view courses for Current Semester or All semesters will only be visible when at least one student's schedule has been expanded.

Note: Depending on district settings, the information available may be different from student to student depending on each student's building/school level.

Campus Tab

This tab is where districts can add general information for users, including cycle days, announcements, and other pertinent school information. Depending on your district, this tab may or may not contain information.

Student Record

Reminder: To access the student record for an individual, click the View Student Record  button, or click on the student's photo or name after you login to Portal.

Student Record

The top portion of the screen will provide basic information about that student. This includes the student's full name, age, date of birth, primary language, address, phone number, grade, enrollment type, and building/school level. Depending on permissions, the User may also see that student's current location.

Contacts Tab

The Contacts tab provides a list of contacts associated with that student. This will show parents, guardians, and other adult contacts, and any siblings. The specific information that is displayed is based on permissions set by the district.

Schedule Tab

The Schedule tab provides a complete list of the student's schedule for the current school year. This list shows which course the student has during each period, which section number the student is in, the days that course meets, the room where the course meets, and the teacher who teaches that course.

Note: Depending on user permissions and settings in Maintenance, student schedules may not be available until after a specified date. When this is the case, a message will appear in place of the schedule to indicate that schedules are not currently available.

The user may use the Send Email  button to email any teacher who has an email address listed. To send an email use the process described under the **Contacts Tab** section.

The schedule may be viewed in Standard View, or in Grid View. The user may switch between views by clicking the appropriate radio button and waiting for the page to refresh with the new view.

Attendance Tab

The Attendance tab shows a summary of the student's total absences for the current year (if any). Users may view a summary of Daily Attendance, All Course Attendance, or Missed Course Attendance by selecting the appropriate radio button. Use the year drop-down to review historical data for a previous year. Keep in mind that not all districts are configured the same way, so some of these options may not be available for all users.

- The Daily Attendance view shows users all daily absences. This may also include early dismissals, late arrivals, and in/out records.
- The Course Attendance options (All, Missed Courses, and Attendance Letter) allow users to see a summary of course attendance for that year:
 - All: shows all course absences, including those that are tied to daily absences.
 - Missed Classes: shows all period misses where the student was marked absent by a teacher (this view only includes period misses for times when the student was expected to be in class, and does not include period absences that are tied to daily absences).
 - Attendance Letter: shows a list of period attendance that may contribute to attendance policy letters.

Note: Each summary view is controlled by its own permission; if you do not have permission to view a specific option, the radio button for that option will not appear. In addition, depending on your school's settings, newly submitted absences may not be visible immediately.

Discipline Tab

On the Discipline tab, the user can view a list of all discipline incidents the student has received for the selected year. Users may view incidents from past years by selecting a different year from the drop-down menu at the top left corner.

Depending on district configuration, these may include classroom incidents and/or referrals. The list shows the student's grade, the date seen, the date of the incident, the incident type, the offense type, the disposition assigned for that incident.

Depending on user permissions and district settings, users may be able to see all incidents for that student or only those for which a "Date Seen" has been entered.

Assignment Grades

For any assignment with an attribute associated with it, the Student Score column will display the score, if any, as well as the short code for any attributes applied to that assignment and the adjusted score (if appropriate). Multiple attributes are separated by a comma.

Scores, attributes, and adjustments are displayed as follows:

Score (Adjusted Score) [Attribute Short Code]

For example, a student originally received a 100 on an assignment, but the teacher applied an "EC" attribute to that assignment to designate Extra Credit of 10%. The student's score now shows 100 (110) [EC] to indicate the adjustment.

Users can move their mouse over any attribute in the Student Score column. The mouse-over text will show the user the full name of the attribute and any adjustment defined for that attribute. For example, holding the mouse over the “L1” attribute may display “Late 1: -5%” to indicate that the score has been adjusted by -5% based on the application of that attribute.

Other Tabs

Depending on district settings, additional information or tabs may be available. Some Portal Users will see an Assessments tab, which includes data about state assessments for grades 3-8, or a Letters tab, which displays a list of attendance letters that were sent home.
